

VoiceAnnounce[®] 9900CW

Talking Caller ID with Call Waiting and Name Announce

The VoiceAnnounce 9900CW identifies incoming and call waiting calls by announcing the caller's name or telephone number and gives caller ID subscribers what they have been looking for - the ability to screen calls without having to run to the caller ID. Provides true convenience for busy families who want to know who's calling before interrupting what they're doing to answer the phone. Senior citizens and children at home can avoid unwanted calls, but still know when it's OK to answer the phone.

Features include audible call log review with date/time announcement. English and Spanish display and announcements. Superior sound quality with volume control can be easily heard throughout the house and makes it easy to recognize who's calling. The VoiceAnnounce 9900CW has a proven track record of high customer satisfaction and quality.
